

"JOIN LIFE" PROJECT

An ethically designed and conducted service for vulnerable people

"Immigration remains a significant challenge in our region, often leaving vulnerable individuals with unmet basic needs and rights"

We, the Lions of 118 E, believe in the power of women to effect positive change for their families and communities.

"JOIN LIFE"

In the aftermath of South Turkey's devastating earthquake, our 'Join Life' project aims to empower women living in container villages.

"JOIN LIFE"

"Through workshops, we provide opportunities for women to earn income, socialize, and overcome trauma."

“JOIN LIFE”

Our unique approach involves selling products before production, ensuring efficient use of resources and labor.

Collaborations with fashion designers and businesses have helped expand our project's reach and impact.

"JOIN LIFE"

"The project's success has led to its recognition as an MD Project, with plans to establish workshops in multiple cities.»

Developed workshops in the Lions social centers in 3 cities for continuity in partnership with local municipalities.

We offer women training in entrepreneurship, finance, marketing, and mentorship, fostering their independence

Our ultimate goal is to enable women to rebuild their lives and stand on their own feet with dignity

Women's Production

Our ultimate goal is to enable women to rebuild their lives and stand on their own feet with dignity

The project's expansion to Istanbul and partnerships with local municipalities demonstrate its growing influence.

“JOIN LIFE”

"By inviting numerous women to 'join life,' we are creating a supportive community for vulnerable individuals."
